T MEANS PROHIBITION

If Two of Judge Burford's Ulcers, Old Sores, Cancers, Decisions Stand.

CAN'T LEAVE THE WARD

For Signatures-The Obstruc-_ tion by Appeal.

Guthrie, O. T., May 22.-If two recent decisions by Judge Burford are sustained by the supreme court it will not require any further legislation to place the liquor traffic in Oklahoma under a more rigid prohibitory ban than exists today even in Kansas. In the district court of Logan county last Saturday, in the case of Nipe & Hasty, liquor dealers at Mulhall, Judge Burford decided that in villages and towns where there are not thirty realdent taxpayers in a ward, the person who desires to engage in the liquor traffic is not permitted to go out of the ward to cure the number of petitioners required by law, hence it becomes apparent that in all villages and towns, very few of which, if any, have a ward containing thirty taxpayers, what amounts to practical probinition so far as salons concerned, must prevail. The effect of this ruling would be to give to cities of the first class a monopoly of the licensed liquor traffic but under another decision made by Judge Burford at Sililwater last week, it is the opinion of well-informed attorneys that even where a liquor dealor has complied with the law in all its requirements he can be subjected to such harassment that it would be ruinous to attempt to continue in business. The Stillwater decision was, in aubitance, that an appeal from the action of a board of county commissioners in granting a liquor license acts as a revocation of the license until the appeal is heard on its merits and disposed of. Discussing the future effect of this decision, a Guthrie lawyer said today:

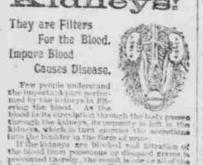

It means that within less than six months, if the decision is upheld by the supreme court, there will be an absolute toppage of licensed liquor traffic and that the sale of liquor will be carried on through drug stores, joints and bootleggers, so is done in Kansas and in th Indion reservations. No liquor dealer, no matter how conscientiously he may fulfill every requirement of the law in making application for Beense to sell liquor, is exempt from an appeal if his license is granted, and pendlar the disposition of this leposit he must necessarily close his place of husiness vinless he wants to assume the risk of violating the law by continuing without a license. No matter how trivial the prefext for an appeal, under the decision of the court, it acts as an instant revocation of the license and the dealer is expected to keep his place of business closed until the appeal has dragged its weary way through the courts, and there is hardly a doubt that the powers belief this prohibition move ment will carry the case to the supreme court if decided against them in the low-What makes the situation doubly hard on the liquor dealer is that no in-demnifying bond is required with the filing of an appeal in such cases and where a certain number of persons unit oding that the county attorney carry up the appeal, not even a cost bond. is required. So it may readily be seen that under such conditions the liquor dealer must stand by and see his
